## Employment

Assistant Professor, Decision, Risk, and Operations Division, Columbia Business School, 2020—Present  
LinkedIn Scholar, Trust & Responsible AI, LinkedIn, 2022—Present  
Research Scientist, Core Data Science, Facebook, 2019–2020  
Research Assistant, Peter W. Glynn and John C. Duchi, Stanford University, 2014–2019

## Education

Ph.D. Management Science and Engineering, Stanford University, 2019  
Advisors: John C. Duchi and Peter W. Glynn  
M.S. Statistics, Stanford University, 2017  
B.S. Summa Cum Laude. Industrial Engineering and Mathematics, KAIST, 2013

## Teaching

B8103: Business Analytics II (MBA, MS), Columbia University, 2021–2023  
B9145: Reliable Statistical Learning (PhD), Columbia University, 2020, 2023

## Publications<sup>1</sup>

### Preprints

- P1 J. Liu\*, T. Wang\*, P. Cui, and H. Namkoong. On the need for a language describing distribution shifts: Illustrations on tabular datasets. *arXiv:2307.05284 [cs.LG]*, 2023.
- P2 A. Boyarsky, H. Namkoong, and J. Pouget-Abadie. Modeling interference via experiment rollout. *arXiv:2305.10728 [stat.ME]*, 2023. Conference version appeared in ACM conference on Economics and Computation.
- P3 T. Cai, H. Namkoong, and S. Yadlowsky. Diagnosing model performance under distribution shift. *arXiv:2303.02011 [stat.ML]*, 2023. Conference version appeared Symposium on Foundations of Responsible Computing 2023
- P4 H. Namkoong, Y. Ma, and P. W. Glynn. Minimax optimal estimation of stability under distribution shift. *arXiv:2212.06338 [stat.ML]*, 2022. Major revision in Operations Research.
- P5 M. Li, H. Namkoong, and S. Xia. Evaluating model performance under worst-case subpopulations. *Working paper*, 2022. Short version appeared in NeurIPS 2021.

---

<sup>1</sup>Customary authorship ordering is by alphabetical order. Name\* denotes equal contribution.

- P6 H. Namkoong, S. Daulton, and E. Bakshy. Distilled thompson sampling: Practical and efficient thompson sampling via imitation learning. *arXiv:2011.14266 [cs.LG]*, 2021. Selected for an oral presentation at the Neurips 2020 OfflineRL Workshop.
- P7 S. Jeong and H. Namkoong. Robust causal inference under covariate shift via worst-case subpopulation treatment effect. *arXiv:2007.02411 [stat.ML]*, 2022. Short version appeared in Conference on Learning Theory 2020.

## Journal publications

- J1 S. Yadlowsky, H. Namkoong, S. Basu, J. Duchi, and L. Tian. Bounds on the conditional and average treatment effect with unobserved confounding factors. *Annals of Statistics*, 50(5):2587–2615, 2022.
- J2 J. C. Duchi, T. Hashimoto, and H. Namkoong. Distributionally robust losses against mixture covariate shifts. *Operations Research*, 2022.
- J3 J. C. Duchi and H. Namkoong. Learning models with uniform performance via distributionally robust optimization. *Annals of Statistics*, 49(3):1378–1406, 2021.
- J4 J. C. Duchi, P. W. Glynn, and H. Namkoong. Statistics of robust optimization: A generalized empirical likelihood approach. *Mathematics of Operations Research*, 46(3):946–969, 2021.
- J5 J. C. Duchi and H. Namkoong. Variance-based regularization with convex objectives. *Journal of Machine Learning Research*, 2019.

## Refereed conference proceedings<sup>2</sup>

- C1 A. Boyarsky, H. Namkoong, and J. Pouget-Abadie. Modeling interference via experiment rollout. In *Proceedings of the 24th ACM conference on Economics and Computation*, 2023.
- C2 T. Cai, H. Namkoong, and S. Yadlowsky. Diagnosing model performance under distribution shift. In *Symposium on Foundations of Responsible Computing*, 2023.
- C3 M. Wortsman, G. Ilharco, S. Y. Gadre, R. Roelofs, R. Gontijo-Lopes, A. S. Morcos, H. Namkoong, A. Farhadi, Y. Carmon, S. Kornblith, and L. Schmidt. Model soups: averaging weights of multiple fine-tuned models improves accuracy without increasing inference time. In *Proceedings of the 39th International Conference on Machine Learning*, 2022.
- C4 M. Wortsman, G. Ilharco, J. W. Kim, M. Li, S. Kornblith, R. Roelofs, R. Gontijo-Lopes, H. Hajishirzi, A. Farhadi, H. Namkoong, and L. Schmidt. Robust fine-tuning of zero-shot models. In *Proceedings of the 32nd IEEE Conference on Computer Vision and Pattern Recognition*, 2022. Selected for a full oral presentation
- C5 M. Li, H. Namkoong, and S. Xia. Evaluating model performance under worst-case subpopulations. In *Advances in Neural Information Processing Systems 34*, 2021.
- C6 H. Namkoong\*, R. Keramati\*, S. Yadlowsky\*, and E. Brunskill. Off-policy policy evaluation for sequential decisions under unobserved confounding. In *Advances in Neural Information Processing Systems 33*, 2020.
- C7 S. Jeong and H. Namkoong. Robust causal inference under covariate shift via worst-case subpopulation treatment effect. In *Conference on Learning Theory*, 2020.

<sup>2</sup>Papers displayed in gray are superseded by long versions.

- C8 M. O’Kelly\*, A. Sinha\*, H. Namkoong\*, J. Duchi, and R. Tedrake. Scalable end-to-end autonomous vehicle testing via rare-event simulation. In *Advances in Neural Information Processing Systems 31*, 2018.
- C9 R. Volpi\*, H. Namkoong\*, J. Duchi, V. Murino, and S. Savarese. Generalizing to unseen domains via adversarial data augmentation. In *Advances in Neural Information Processing Systems 31*, 2018.
- C10 T. Hashimoto, M. Srivastava, H. Namkoong, and P. Liang. Fairness without demographics in repeated loss minimization. In *International Conference on Machine Learning*, 2018. Best Paper Runner-up Award.
- C11 A. Sinha\*, H. Namkoong\*, and J. Duchi. Certifiable distributional robustness with principled adversarial training. In *International Conference on Learning Representations*, 2018. Selected for a full oral presentation; 2% of submissions.
- C12 H. Namkoong and J. C. Duchi. Variance regularization with convex objectives. In *Advances in Neural Information Processing Systems 30*, 2017. Best Paper Award.
- C13 H. Namkoong, A. Sinha, S. Yadlowsky, and J. C. Duchi. Adaptive sampling probabilities for non-smooth optimization. In *International Conference on Machine Learning*, pages 2574–2583, 2017.
- C14 H. Namkoong and J. C. Duchi. Stochastic gradient methods for distributionally robust optimization with  $f$ -divergences. In *Advances in Neural Information Processing Systems 29*, 2016.

## Technical reports & software

- T1 G. Ilharco, M. Wortsman, N. Carlini, R. Taori, A. Dave, V. Shankar, H. Namkoong, J. Miller, H. Hajishirzi, A. Farhadi, and L. Schmidt. Openclip: Open-sourced implementation of clip, Jul 2021. URL <https://doi.org/10.5281/zenodo.5143773>
- T2 A. Sinha\*, H. Namkoong\*, R. Volpi, and J. Duchi. Certifying some distributional robustness with principled adversarial training. *Technical Report*, 2020.
- T3 H. Namkoong, J. C. Duchi, and P. W. Glynn. Proofs for empirical likelihood with general  $f$ -divergences. *Technical Report*, 2018.

## Honors & Awards

Amazon Research Award, 2022

Best Paper Finalist for “Robust fine-tuning of zero-shot models”, *Conference on Computer Vision and Pattern Recognition (CVPR)*, 2022

Best Student Paper Award for “Statistics of Robust Optimization: A Generalized Empirical Likelihood Approach”, *INFORMS Applied Probability Society*, 2018

Best Paper Runner Up Award for “Fairness Without Demographics in Repeated Loss Minimization”, *International Conference on Machine Learning (ICML)*, 2018

Best Paper Award for “Variance Based Regularization with Convex Objectives”, *Neural Information Processing Systems (NeurIPS)*, 2017

Samsung Fellowship, 2013–2018

Department Fellowship, Management Science and Engineering, Stanford, 2013–2018

KAIST President’s Award (graduated top of class in the School of Engineering), 2013

Undergraduate Research Award, First Place, Department of Industrial and Systems Engineering, 2012

## Professional Service

### Senior Program Committee

2021-23	Area chair, NeurIPS
2023	Area chair, ICML

### Reviewing

**Journals** *Operations Research, Management Science, Journal of the American Statistical Association, Journal of the Royal Statistical Society: Series B, Mathematical Programming, SIAM Journal on Mathematics of Data Science, Journal of Machine Learning Research, Transactions on Pattern Analysis and Machine Intelligence, Automatica.*

**Conferences** *Neural Information Processing Systems, International Conference on Machine Learning, Conference on Learning Theory, Conference on Algorithmic Learning Theory*

### Workshop Organization

2023	Co-Organizer, three INFORMS invited sessions on experimentation
2023	Organizer, INFORMS APS invited session “Frontiers in Sequential Learning”
2022	Co-organizer, NeurIPS workshop on “Distribution shifts: connecting methods and applications (DistShift)”
2022	Organizer, INFORMS invited session “Causality & Robustness”
2022	Co-organizer, INFORMS invited session “Experimentation Design”
2022	INFORMS HAS Pierskalla Award committee member
2022	Co-organizer, ICDM workshop on “Algorithms Towards Ethical and Privacy Challenges in Social Media Recommendation Systems (AESM)”
2021	Organizer, mentoring program for PhD students at the Neurips workshop on “Distribution shifts: connecting methods and applications (DistShift)”
2021	Co-organizer, NeurIPS workshop on “Distribution shifts: connecting methods and applications (DistShift)”
2021	Co-organizer, JSM invited session on “distributional robustness, validity, causality, and generalizability”
2019	Co-organizer, INFORMS invited session on “AI and machine learning”

## Research Supervision

### Ph.D. Advising

Ari Boyarsky (DRO)  
Tiffany Cai (Statistics)  
Ethan Che (DRO, co-advised with Jing Dong)  
Yuanzhe Ma (IEOR, co-advised with Garud Iyengar and Jay Sethuraman)  
AYeong Lee (DRO)  
Daksh Mittal (DRO)  
Naimeng Ye (DRO)  
Yibo Zeng (IEOR, co-advised with Henry Lam)

**Student collaborators** Yuri Fonseca , Nicholas Galbraith, Yian Huang, Mike Li, Jiashuo Liu , Tianyu Wang , Shawn Xia, Yunbei Xu

## Ph.D. Thesis Committee

Nicholas Galbraith (Statistics), Yuanling (Judy) Gan (DRO), Yian Huang (Statistics), Shangzhou (Shawn) Xia (DRO), Yunbei Xu (DRO), Yibo Zeng (IEOR), Junzhe Zhang (CS)

## Undergraduate Advising

Jimmy Wang (CS), Leon Li (CS), Tony Chen (CS), Andrew Siah (CS), Jacklyn Tsai (CS), Rohan Subramani (CS), Martha Wangechi Njuguna (CS)

## Invited Talks

2023 Joint Statistical Meetings, Toronto  
2023 New England Statistics Symposium  
2023 INFORMS RMP Conference, Nancy, France  
2023 INFORMS APS Conference, Nancy, France  
2023 Panelist, Showcase on Large Language Models, Columbia Center of AI Technology  
2023 Department of Management Science and Engineering, Stanford University  
2023 AI Matrix Seminar, UT San Antonio  
2023 Moderator, Bernstein Center for Leadership and Ethics, Columbia Business School  
2023 Operations Research Center, MIT  
2022 Conference on Digital Experimentation, Cambridge  
2022 INFORMS Annual Meeting, Indianapolis  
2022 IFDS Workshop on Distributional Robustness in Data Science, University of Washington  
2022 International Conference on Continuous Optimization (Bethlehem, PA)  
2022 Department of Industrial & Systems Engineering and Computer Science, KAIST  
2022 College of Business and AI, KAIST  
2022 International Conference on Econometrics and Statistics, Kyoto  
2022 Data Science Lab, MIT  
2022 Department of Economics, Columbia University  
2022 Workshop on Foundations of Stable, Generalizable and Transferable Statistical Learning, Mathematical Sciences Research Institute  
2021 Department of Statistics, Columbia University  
2021 LinkedIn  
2021 Workshop on “distributional robustness, validity, causality, and generalizability”, Joint Statistical Meetings  
2021 Empirical Inference Department, Max Planck Institute for Intelligent Systems  
2021 Department of Mathematics, KAIST  
2021 School of Data Science, Seoul National University  
2021 Data Science Institute, Columbia University  
2021 Decision Science Group, McCombs School of Business, UT Austin  
2020 Samsung Advanced Institute of Technology, Seoul  
2020 Google Brain, Cambridge  
2020 Cancelled due to COVID-19: Conference on Information Sciences and Systems, American Causal Inference Conference, SIAM Conference on Mathematics of Data Science  
2019 Uber Marketplace and Uber Eats, San Francisco

2019 OIT Division, Graduate School of Business, Stanford University  
 2019 INFORMS Annual Meeting, Seattle  
 2019 Stitchfix, San Francisco  
 2019 Department of Computer Science, University of Wisconsin-Madison  
 2019 Department of Industrial and Systems Engineering, University of Wisconsin-Madison  
 2019 School of Operations Research and Industrial Engineering, Cornell Tech  
 2019 Machine Learning and Statistics Group, Microsoft Research New England  
 2019 Operations and Statistics Group, MIT Sloan School of Management  
 2019 Department of Operations Research and Industrial Engineering, UT Austin  
 2019 Machine Learning Department, Carnegie Mellon University  
 2019 Heinz College, Carnegie Mellon University  
 2019 Department of Industrial Engineering and Operations Research, Columbia University  
 2019 Decisions, Risk and Operations Division, Columbia Business School  
 2019 Department of Electrical and Computer Engineering, Purdue University  
 2019 Operations Management Division, Booth School of Business, University of Chicago  
 2019 Data Sciences and Operations, Marshall School of Business, University of Southern California  
 2018 Department of Industrial and Operations Engineering, University of Michigan  
 2018 Three invited talks, INFORMS Annual Meeting (Phoenix, AZ)  
 2018 Oral Presentation, International Conference on Learning Representations (Vancouver, Canada)  
 2017 Oral Presentation, Neural Information Processing Systems (Long Beach, CA)  
 2016 Department of Industrial and Systems Engineering, KAIST  
 2016 Young Researchers Workshop, School of ORIE, Cornell University

#### Academic Committees

Member, Ph.D. Admissions Committee, Columbia University, 2020–current

Member, Faculty Hiring Committee, Columbia University, 2021-2022

Member, Ph.D. Program Review Committee, Columbia University, 2021

**Outside Activities** Columbia Business School requires faculty members to disclose any activities that might present a real or apparent conflict of interest. I consult at LinkedIn, serving as a LinkedIn Scholar.
